conced

63. (New) The system of claim 60, further including a template generator, coupled to the signal feature comparison circuit, the template generator adapted to generate the template time differences over a plurality of cardiac complexes obtained from the patient during normal sinus rhythm.

REMARKS

Claim 1 is cancelled and claims 46-63 are added. As a result, claims 46-63 are now pending in this application. The specification is amended to update the cross reference to the prior application, to correct references to Figures 4A and 4B and Figures 8A and 8B, and to correct a repeated typographical error.

Applicant respectfully submits that the amendments made to the specification in this preliminary amendment are supported by the originally filed application, as the incorporation by reference was stated on the transmittal page of the originally filed application.

Respectfully submitted,

WILLIAM HSU ET AL.
